

CONTAINER HOARDINGS

Container Hoardings specialises in container modifications starting from easy jobs such as adding a personnel door, windows or whirly birds to customising a solution for your specific needs.

The biggest advantage of a container is that it is a large structural element that can be transported around with ease. This means it can be modified into virtually anything, the only limitation being your imagination.

We can convert shipping containers into everything and anything including:

- Training facilities
- Aircraft hangers
- Storerooms
- Shooting ranges
- Kitchens
- Workshops
- Water treatment plants etc.

**“WE THINK
OUTSIDE
THE SQUARE
TO CUSTOMISE
YOUR BOX”.**

To find out how we can help to create a custom solution contact us with your requirements and discover what is possible. See how our engineers are able to transform ideas into reality.
